

Index to Volume 4

- Anbas, S. A., 287-295
 Adam, R. U., 125-130
 Anderson, R. E., 19-24
 Angell, F. L., 207-208
 Aphroip, J. S., 277-286
 Aun, Y. H., 325-319
 Bernaltino, M. E., 193-196
 Blechin, A., 133-196
 Bonstelle, C. T., 217-220
 Bydner, G. M., 29-36, 43-47,
 132-145, 209-214,
 245-248
 Chiu, L. C., 51-69, 201-206,
 314-335
 Conroy, R. M., 10-18
 Dallova, R. L., 98-104
 Davis, K. R., 98-42, 98-104
 Deeb, Z. L., 195-187
 Davabaktuni, P., 222-224
 Diacorja, J. N., 261-270
 Dixon, G. H., 277-286
 Domingues da Silva, A. A.,
 287-295
 Drayer, B. P., 165-167
 Ducker, D. B., 296-308
 Eichelberger, R. P., 241-244
 Ellert, J., 225-240
 Gallagher, J. H., 185-186
 Ghoshrajra, K., 271-275,
 309-318
 Glenn, W. V., 10-18
 Grider, R. D., 330-333
 Grove, A. S., Jr., 98-104
 Gudeman, S. K., 287-295
 Padar, H., 48-50
 Handler, S. J., 10-18
 Helberg, E., 330-333
 Hesselink, J. R., 98-104
 Holland, G. N., 1-7
 Itani, A., 187-192
 Johnson, F., 330-333
 Johnstone, E. C., 43-47
 Kaufman, B., 217-220
 Klein, Y. C., 10-18
 Kishore, P. R. S., 287-295
 Kittredge, R. D., 118-120
 Kreel, L., 1-7, 29-36, 43-47,
 132-145, 209-214,
 225-240, 245-248
 Lee, S. H., 125-130, 325-329
 Levine, H. L., 187-192,
 222-224
 Libshitz, H. I., 193-198
 Lipper, M., 1., 287-295
 Long, S. I., 241-244
 Maustby, G. O., 241-244
 Meaney, T. F., 185-186
 Modic, M. T., 217-220
 Moore, W. S., 1-7
 Orr, D. P., 165-167
 Osborn, A. G., 19-24, 89-96
 Owens, D. J. C., 43-47
 Patel, S., 323-324
 Rao, K. C. V. G., 187-192,
 222-274, 253-260,
 261-270, 309-318
 Rauschkoll, E. N., 323-324
 Robinson, W., 187-192
 Sajor, E., 187-192
 Sandler, C. M., 319-322
 Saul, T. G., 296-308
 Schapiro, R. L., 51-69
 Solomon, E. H., 217-220
 Strax, R. T., 318-322
 Sundaram, M., 330-333
 Toggia, J. U., 325-329
 Tombs, B. D., 319-322,
 323-324
 Truax, R. C., Jr., 125-130
 Tsai, F. Y., 277-286
 Vacka, L. J., 185-186
 Wedel, V. J., 201-206
 Williams, R. G., 89-96
 Wing, S. D., 19-24
 Wolverson, M. K., 330-333
 Yiu-Chiu, V., 51-69, 201-206
 Zee, C. S., 277-286
 Zito, J. L., 98-42
-
- 241-244
 cerebral venous angioma,
 217-220
 cost, 200
 craniocerebral trauma,
 253-260
 hemangioma, cavernous,
 101-102
 lymphangioma, orbit, 101-102
 "one-shot," 305-306
 Angioma, cerebral venous,
 217-220
 Anomaly, right aortic arch (type
 IIIA1B), 241-244
 Aorta
 abdominal aneurysm, 197-200
 arch, right (type IIIA1B),
 241-244
 Ascites, 106, 238
 Atrium, left wall calcification,
 48-50
 Atrophy, cerebral, post-
 traumatic, 290-293
 Blood, cerebral, 262
 Bone, erosion or defect, 237-238
- Brain**
 angioma, cerebral venous,
 217-220
 chemodectoma, carotid body,
 185-187
 cranial fossa, middle, 89-96
 craniocerebral trauma,
 253-260
 cranioyenocele, primary,
 125-130
 head trauma, 261-270,
 277-286, 287-295, 296-308,
 327-328
 pcstisucotomy, 43-47
 transverse axial NMR scans,
 1-7
 Brain injury, 277-283
- Calcification**
 atrial wall, left, 48-50
 tumor, postradiotherapy,
 245-248
Carcinoma
 lung, primary, 146-163
 nasopharyngeal, post-radio-
 therapy calcification, 247

- ovarian, 142
- rectal, post-radiotherapy calcification, 245-248
- renal cell, primary, 185-186
- Cardiophrenic angle nodes, 193-196
- Carotid body chemodectoma, 165-167
- Carotid-cavernous fistula, 253-260
- Central nervous system sarcoma, 207-208
- Cerebrospinal fluid, leakage, 271-276
- Chemodectoma, carotid body, 165-167
- Child abuse, head trauma in, 277-286
- China, CT scanning in Peking [letter], 334-335
- Cholecystitis
 - calculous hemorrhagic, 201-206
 - acute, 108
- Chordoma, vertebral
 - extradural extension, 38-42
- Colon, malignant tumor, 225-240
- Computed tomography
 - advantages, in head injury, 297-305
 - American College of Radiology statement on, 345-347
 - and radionuclide imaging of liver, 51-62
 - comparison with other diagnostic modalities in pancreatic trauma, 320-322
 - indications for, 227, 296-297
- Computed tomography, methods
 - algorithm, reconstruction, 32
 - artefacts, linear nonmovement, 29-36
 - attenuation, 32, 36, 89-96
 - bolus infusion, 32-36, 165-167
 - contrast agent, 32
 - enhancement, 99-100
 - low attenuation, 89-96
 - gratuitous alignment, 31-32
 - metrizamide myelography, 36-42
 - multiplanar, 10-18
 - NMR, 1-7
 - photomultiplier gain, 32-3
 - problems, diagnostic, 236-239
 - sagittal, 19-24
 - sequential, 261-270
 - timing, for head injuries, 296-297
 - whole body, 29-36, 245-248
- Congenital malformations, 89
- Contusion, cerebral hemorrhagic, 266-267
- Costs
 - abdominal aortic aneurysm, 260
 - renal cell carcinoma, 183-186
 - Craniocerebral traumas, 253-260
 - Craniosynostosis, primary, 125-130
 - Cysts
 - acquired, 89-91
 - hepatic, 109
 - pancreatic, 109-110
 - renal, 110
 - Edema, cerebral, 261-262
 - Electromagnetic waves, 1-2
 - EMI CT5005 body scanner, linear nonmovement artefacts, 29-38
 - Eye, cavernous hemangioma and lymphangioma, 98-104
 - Face
 - lesions, 19-24
 - trauma, 253-260
 - Fibrosis, postirradiation, 236
 - Fistula, carotid-cavernous, 253-260
 - Fluid collections
 - abdominal, normal, 105-106
 - "solid," 112
 - in kidney transplant, 118-120
 - Fracture
 - hepatic, 323-324
 - skull, 271-276
 - Gallbladder
 - cholecystitis, acalculous hemorrhagic, 201-206
 - cholecystitis, acute, 108
 - Glioblastoma, multicentric, 187-192
 - Head injury, 261-270, 271-276, 277-286
 - delayed sequelae, 287-295
 - excessively small - entricles, 327-328
 - prognosis, 296-308
 - Headache, and excessively small ventricle, 327
 - Heart
 - atrial wall calcification, 48-50
 - pericardial malignancies, 330-333
 - Hemangioma, cavernous, 98-104
 - Hematoma
 - epidural, 296
 - extracerebral, 261-270
 - extracerebral, delayed, 286-290
 - intracerebral, 262-263
 - intracerebral, delayed, 287-289
 - subdural, 263-265
 - Hemorrhage
 - abdominal, 111
 - cerebral contusion, 266-267
 - cranial, 277-286
 - gallbladder, 201-206
 - subarachnoid, 267
 - Hydrocephalus, post-traumatic, 280-293
 - Hydroencephalus, 111
 - Hygroma, subdural, 265-266
 - Kidney
 - carcinoma, 185-186
 - transplant, interpretation problems, 118-120
 - Lesions
 - encephalomalacic processes, 92
 - inflammatory, 91-92
 - lung, central, 152-156
 - lung, collapse, 156-162
 - lung, peripheral, 149-152
 - mass, 296-308
 - solid, 111
 - Leucotomy, follow-up, 43-47
 - Liver, 51-62, 238
 - fracture, 323-324
 - metastasis, 193-196, 226-228, 233-234
 - portal-systemic shunts, 10-18
 - Lung
 - lesions, 149-162
 - metastasis, 228, 234-235
 - pericardial malignancies, 330-333
 - primary carcinoma, classification, 146-163
 - Lymphadenopathy, 212
 - Lymphangioma, 98-104
 - Lymphoma, 209-214
 - abdominal calcification, post-radiotherapy, 248-247
 - Maryland Institute for Emergency Medical Services System, 296
 - Mass lesion, 296-308
 - Mediastinum, cardiophrenic angle nodes, 193-196
 - Meningioma, simulated, 222-224
 - Metastasis
 - advanced, 193-196
 - central nervous system, 207-208
 - colonic, 216-229, 233-236
 - pericardial, 330-333
 - sarcoma, alveolar, soft part, 207-208
 - Mitral valve, calcification, 48-50
 - Myelography, computed metrizamide, 38-42

- Nasopharynx
 carcinoma, postradiotherapy, 247
 lesions, 19-24
- Neoplasms
 benign, 92-93
 malignant, 93-94, 142, 207-208, 225-240
 metastatic, 193-196, 207-208, 226-229, 233-236, 330-333
 recurrent, 228-229, 231-236, 238-239
- NMR, 1-7
- Nides, cardiophrenic angle, 193-196
- Ovary, carcinoma, 142
- Pancreas
 transection, 319-322
 trauma, blunt, 319-322
- Patient preparation, colonic neoplasms, 236
- Pericardium
 fluid, 330-333
 tumors, 330-333
- Portal-systemic shunts, multiplane, 10-18
- Portography, percutaneous transhepatic, 10-18
- Pressure, intracranial, 296-308
- Pseudocyst, pancreatic, 109-110
- Pseudotumor cerebri, 327
- Radionuclide imaging
 eye, 101-102
 liver, 51-62
- Radiotherapy, and tumor calcification, 245-248
- Sarcoma, alveolar soft part, 207-208
- Schizophrenia, CT scan after leucotomy, 43-47
- Seizures, 327
- Shunts, portal-systemic, diagnosis, 10-18
- Sinus anomaly, 222-224
- Skull
 base of, trauma, 271-276
 craniocervical trauma, 253-260
 head trauma, 261-270, 277-286
- Spinal canal
 extradural extension from vertebral chordoma, 38-42
- Spine, trauma, 309-318
- Sutures
 coronal, 128-129
 lambdoid, 125
 multiple, fusion, 129
 sagittal, 125-128
- Transplant, renal, Interpretation problems, 118-120
- Trauma
 craniocerebral, 253-260
 head, 261-270, 277-286, 327-328
 head, delayed sequelae, 287-295
 head, prognosis, 296-308
 pancreatic, 319-322
 skull, base, 271-276
 spinal, 309-318
- Tumors, see Cysts, Metastasis, Neoplasms
- Ultrasound
 cavernous hemangioma and lymphangioma, orbit, 98-104
 portal-systemic shunts, 10-18
- Uterus, 235
- Venography
 cerebral angioma, 217-220
 orbit, cavernous hemangioma and lymphangioma, 101-102
 sinus anomaly, 224
- Ventricle, excessively small, 325-326
