# CLINICAL IMAGING

VOLUME 36, NUMBER 4, 2012

## *Contents*

---

### ORIGINAL ARTICLES

- 249 **Characteristics of Axillary Lymph Nodes Apparent on Dynamic Contrast-Enhanced Breast MRI in Healthy Women**  
Julia Krammer, Dorothee Engel, Johanna Nissen, Andreas Schnitzer, Marc Suetterlin, Stefan O. Schoenberg, and Klaus Wasser
- 255 **Effects of Breast Thickness and Lesion Location on Resolution in Digital Magnification Mammography**  
Hye-Suk Park, Yuna Oh, Sang-Tae Kim, and Hee-Joung Kim
- 263 **Frequency and Etiology of Unexplained Bilateral Hydronephrosis in Patients With Breast Cancer: Results of a Longitudinal CT Study**  
Ari J. Kane, Zhen J. Wang, Aliya Qayyum, Benjamin M. Yeh, Emily M. Webb, and Fergus V. Coakley
- 267 **Vascular Morphologic Information of Three-Dimensional Power Doppler Ultrasound is Valuable in the Classification of Breast Lesions**  
Ping-Lang Yen, Hwa-Koon Wu, Hsin-Shun Tseng, Shou-Jen Kuo, Yu-Len Huang, Hong-Ting Chen, and Dar-Ren Chen
- 272 **Kimura's Disease: Clinical and Imaging Parameters for the Prediction of Disease Recurrence**  
Yang Yu Lin, Shih Ming Jung, Sheung Fat Ko, Cheng Hong Toh, Alex Mun Ching Wong, Yu Ruei Chen, Siu Cheung Chan, Yun Chung Cheung, and Shu Hang Ng
- 279 **Optimization of Chest Radiographic Imaging Parameters: A Comparison of Image Quality and Entrance Skin Dose for Digital Chest Radiography Systems**  
Zhonghua Sun, Chengsun Lin, YeuSheng Tyan, and Kwan-Hoong Ng
- 287 **The Complicated Duodenal Diverticulum: Retrospective Analysis of 11 Cases**  
Thomas de Perrot, Pierre-Alexandre Poletti, Christoph D. Becker, and Alexandra Platon
- 295 **Pictorial Review: Rectosigmoid Endometriosis on MRI With Gel Opacification After Rectosigmoid Colon Cleansing**  
Pierre Loubeyre, Michele Copercini, Jean Louis Frossard, Jean Marie Wenger, and Patrick Petignat
- 301 **Hypervascular Hepatic Nodules in Childhood Cancer Survivors: Clinical and Imaging Features**  
Mi Hee Lee, So-Young Yoo, Ji Hye Kim, Hong Eo, Tae Yeon Jeon, Seong Hyun Kim, Eun Young Ko, Hye-Kyung Yoon, Ki Woong Sung, and Soo Hyun Lee
- 308 **Evaluation of DCE-MRI Postprocessing Techniques to Assess Metastatic Bone Marrow in Patients With Prostate Cancer**  
Nicolas Michoux, Paolo Simoni, Bertrand Tombal, Frank Peeters, Jean-Pascal Machiels, and Frédéric Lecouvet

Contents continued

- 316 **The Efficacy of Apparent Diffusion Coefficient Value Calculation in Differentiation Between Malignant and Benign Thyroid Nodules**  
Alper Dilli, Umit Yasar Ayaz, Evrim Cakir, Erman Cakal,  
Salih Sinan Gultekin, and Baki Hekimoglu
- 323 **The Role of Proton MR Spectroscopy and Apparent Diffusion Coefficient Values in the Diagnosis of Malignant Thyroid Nodules: Preliminary Results**  
Hasan Aydın, Volkan Kızılgöz, İdil Tatar, Çağrı Damar, Hakan Güzel,  
Baki Hekimoğlu, and Tuncay Delibaşı
- 334 **Accelerating Image Acquisition in 64-MDCT: The Influence of Scan Parameters on Image Resolution and Quality in a Phantom Study**  
Thorsten Klink, Marc Regier, Udo van Stevendaal, Michael Grass,  
Gerhard Adam, and Philipp Begemann
- 345 **Arterial Spin-Labeling in Routine Clinical Practice: A Preliminary Experience of 200 Cases and Correlation With MRI and Clinical Findings**  
Tai-Yuan Chen, Lee Chiu, Tai-Ching Wu, Te-Chang Wu, Chien-Jen Lin,  
Shih-Chuan Wu, and Yu-Kun Tsui
- 353 **Characterizing the Major Sonographic Textural Difference Between Metastatic and Common Benign Lymph Nodes Using Support Vector Machine With Histopathologic Correlation**  
Shao-Jer Chen, Chun-Hung Lin, Chuan-Yu Chang, Ku-Yaw Chang,  
Hsu-Chueh Ho, Shih-Hsuan Hsiao, Chih-Wen Lin, Jeh-En Tzeng,  
Yen-Ting Chen, and Hong-Ming Tsai
- 360 **Are RECIST Criteria Sufficient to Assess Response to Therapy in Neuroendocrine Tumors?**  
Anna Sowa-Staszczak, Robert Chrzan, Dorota Pach, Agnieszka Stefańska,  
Monika Tomaszuk, Monika Buziak-Bereza, Maciej Kołodziej,  
Elwira Przybylik-Mazurek, and Alicja Hubalewska-Dydejczyk
- 365 **Radiological Features and Pathology of Extraskelatal Mesenchymal Chondrosarcoma**  
Yinyin Chen, Ximing Wang, Lingchuan Guo, Yonggang Li, Shengming Deng,  
Yonghao Liu, and Liang Guo

---

#### CASE REPORTS

- 371 **Collision in the Inferior Olive: Hypertrophic Olivary Degeneration Complicated by Radiation Necrosis in Brainstem Primitive Neuroendocrine Tumor**  
Patricia Litkowski, Robert J. Young, Suzanne L. Wolden,  
Mark M. Souweidane, Sofia Haque, and Stephen W. Gilheeny
- 375 **Intracerebral Hemorrhage Following Endovascular Embolization of Brain Arteriovenous Malformation With a Combination of Onyx and *n*-Butyl Cyanoacrylate: A Case Report**  
Kwo-Whei Lee, Ying-Chao Lin, Chung-Ping Lo, and Chia-Chen Liu
- 379 **Primary Fourth Ventricular Meningioma: A Case Report of an Adult Male**  
Ying Qin, Yoshiko Kanasaki, Marie Takasugi, Yuki Shinohara,  
Toshio Kaminou, Masamichi Kurosaki, and Toshihide Ogawa
- 383 **Elevated Uptake of <sup>18</sup>F-FDG in PET/CT Imaging of a Nocardial Pleural Nodule**  
Kui Zhao, Meng-Jie Dong, Zi-Ke Sheng, Kan-Feng Liu, Shu-Ye Yang,  
Zhen-Feng Liu, and Ji-Fang Sheng

- 386 Dynamic Computed Tomography of Angioedema of the Small Bowel Induced by Iodinated Contrast Medium: Prompted by Coughing-Related Motion Artifact**  
Chun-Ku Chen, Hsiao-Ting Chang, Chi-Wen Chen, Rheun-Chuan Lee, Ming-Huei Sheu, Mei-Han Wu, Hsiao-Ping Chou, Yen-Chun Shen, Nai-Chi Chiu, and Cheng-Yen Chang
- 390 Dedifferentiated Subserosal Liposarcoma of the Jejunum: Sonographic and Computed Tomographic Findings With Pathologic Correlation**  
Dongjun Jeong and Sang Won Kim
- 394 CT Evaluation of Hepatic Paragonimiasis With Simultaneous Duodenal or Splenic Involvement**  
Xue-Ming Li, Jian-Qun Yu, Du He, Li-Qing Peng, Zhi-Gang Chu, Dong-Dong Chen, and Yi Luo
- 398 MRI Features of a Solid Mass-Like Renal Lymphangioma: Case Report**  
Youn Ah Choi, Byung Kwan Park, Chan Kyo Kim, and Sung Yoon Park
- 402 Primary Osteosarcoma Arising From Subcutaneous Tissue: 5-Year Follow-Up**  
Aysegul Sarsilmaz, Mehmet Argin, Murat Sezak, Canan Altay, and Nezahat Erdogan
- 406 Presacral and Intrathoracic Extramedullary Hematopoiesis: A Case Report**  
Yasemin Işık Balcı, Vildan Kaya, and Mustafa Serdar Ateşçi
- 409 Endovascular Management of Fusiform Renal Artery Aneurysm in a Patient With Refractory Hypertension Using Hydrocoils and Embospheres**  
Onur Sildiroglu, Bulent Arslan, and Ulku C. Turba
- 413 BCG-Induced Granulomatous Prostatitis—An Incidental Finding on FDG PET-CT**  
Christopher Wilkinson, Fahmid Chowdhury, Andrew Scarsbrook, and Jonathan Smith
- 416 Sequestered Thoracic Disc Herniation Mimicking a Tumoral Lesion in the Spinal Canal—A Case Report**  
Kyung-Jin Song, Ki Bum Kim, and Kwang-Bok Lee

---

BOOK REVIEWS

- 420 Differential Diagnosis in Pediatric Imaging**  
Anne Geoffray
- 421 EXPERTddx: Chest**  
Sandro Morassut
- 422 Color Atlas of Ultrasound Anatomy, 2nd Edition**  
Jean-Noël Bruneton
- 422 Clinical Cardiac CT—Anatomy and Function, 2nd Edition**  
Pietro Torricelli
- 424 Meetings and Courses**

---

*Cover photo:* Axial MRI showed multiple well-defined mass lesions (arrows) involving the bilateral parotid glands, presenting as hypointensity on T1WI, hyperintensity on T2WI, and homogeneously high enhancement on contrast-enhanced and fat-suppressed T1WI. There was no adjacent subcutaneous fat infiltration. From “Kimura’s disease: clinical and imaging parameters for the prediction of disease recurrence” by Yang Yu Lin, Shih Ming Jung, Sheung Fat Ko, Cheng Hong Toh, Alex Mun Ching Wong, Yu Rwei Chen, Siu Cheung Chan, Yun Chung Cheung, Shu Hang Ng on pages 272–278.
