Association of serum gamma-glutamyl transferase with myosteatosis assessed by muscle quality mapping using abdominal computed tomography
Han Na Jung, Yun Kyung Cho, Hwi Seung Kim, Eun Hee Kim, Min Jung Lee, Joong-Yeol Park, Woo Je Lee, Hong-Kyu Kim and Chang Hee Jung

Incidental findings on staging CT for rectal cancer: Frequency, clinical significance and outcomes
Yen Zhi Tang and Abdullah Alabousi

I saw the “bear paw” sign – Massive renal xanthogranulomatous pyelonephritis
Nicholas John Mynarski, Luyao Shen and Lindsey Marie Negrete

National trends in contrast media enhanced and unenhanced computed tomography use
James W. Goldfarb

Axillary adenopathy detected on breast MRI following COVID-19 vaccination: outcomes and follow-up recommendations
Derek L. Nguyen, Xindi Chen, Lily Kwak, Eniola T. Oluyemi, Lisa A. Mullen and Emily B. Ambinder

Feasibility of contrast-enhanced mammography in women with breast implants
Molly P. Hogan, Tali Amir, Victoria L. Mango, Elizabeth A. Morris and Maxine S. Jochelson

Factors associated with perceived personal risk for breast cancer among women with dense breasts
Matthew M. Miller, Theodore Vasilidiis, Carrie M. Rochman, Kathy Repich, James T. Patrie, Roger T. Anderson and Jennifer A. Harvey

A comparison of the imaging appearance of breast cancer in African American women with non-Latina white women
Jieqi Wang, Jodie Chang, Ying Liu, Debbie L. Bennett and Steven P. Poplack

Systematic analysis of changes in radiomics features during dynamic breast-MRI: Evaluation of specific biomarkers
Anna Landsmann, Carlotta Ruppert, Sylwia Nowakowska, Alexander Ciritsis, Jann Wieler, Moritz C. Wurnig, Cristina Rossi and Andreas Boss

Two in one: Overlapping CT findings of COVID-19 and underlying lung diseases
Gamze Durhan, Selin Ardali Düzgün, Yusuf Baytar, Meltem GÜlsün Akpınar, Figen Başaran Demirkazik and Orhan Macit Arıyürek

Detection of COVID-19 pulmonary manifestations with radiotherapy simulation CT imaging
Abraham J. Wu, Andrew Plodkowski, Michelle Ginsberg, Jacob Shin, Quincey LaPlant, Annemarie Shepherd, Narek Shaverdian, Victor Ng, Daphna Gelblum, Lior Braunstein and Andreas Rimner

Radiographic features of pneumonitis in patients treated with immunotherapy compared to traditional chemotherapy for non-small cell lung cancer
Kathleen M. Capaccione, Sophia Huang, Belinda D'souza, Jay Leb, Lyndon Luk, Jonathan Goldstein, Benjamin May, Aileen Deng and Mary M. Salvatore

MOLECULAR IMAGING AND NUCLEAR MEDICINE

Oncology-specific radiation dose and image noise reference levels in adult abdominal-pelvic CT
Moiz Ahmad, Xinming Liu, Ajaykumar C. Morani, Dhakshinamoorthy Ganeshan, Marcus R. Anderson, Ehsan Samei and Corey T. Jensen

Re: The correlation between PD-L1 expression and metabolic parameters of 18FDG PET/CT and the prognostic value of PD-L1 in non-small cell lung cancer
Mouqing Huang and Jia Guo

MUSCULOSKELETAL AND EMERGENCY IMAGING

Variability of MRI reporting in proximal hamstring avulsion injuries: Are musculoskeletal radiologists and orthopedic surgeons utilizing similar landmarks?
David A. Bloom, Soterios Gyftopoulos, Michael J. Alaia, Thomas Youm, Kirk A. Campbell and Erin F. Alaia

NEURORADIOLOGY

Radiomics for differentiation of the posterior fossa pilocytic astrocytoma versus hemangioblastomas in adults. A pilot study
Houman Sotoudeh, Zahra Saadatpour, Ali Rezaei, Mahsan Sotoudeh, Charles A. Wheeler, Aparna Singhal and Manoj Tanwar

HPV impact on oropharyngeal cancer radiological staging: 7th vs 8th edition of AJCC TNM classification
Elisa Dal Cin, Alberto Vito Marcuzzo, Ferruccio Degrassi, Tiziana Volo, Roberto Spinato, Doriano Politi, Vincenzo Capriotti, Paolo Boscolo-Rizzo and Giancarlo Tirelli

Identifying overall survival in 98 glioblastomas using VASARI features at 3T
Banu Sacli-Bilmez, Zeynep Firat, Osman Melih Topcuoglu, Kaan Yaltirik, Ugur Ture and Esin Ozturk-Isik

Meningitis as a complication of Sjögren's syndrome
Diogo Goulart Corrêa and Luiz Celso Hyginó da Cruz Jr.

PATIENTS & PRACTICE, POLICY & EDUCATION

Insights from nursing for radiologists
Grace M. Yedlicka and Richard B. Gunderman

Getting by with a little help from my friends? Expanding mentorship for career development and satisfaction
Edmund M. Weisberg, Steven P. Rowe, Linda C. Chu and Elliot K. Fishman
